About us

The Centre for Business and Social Action Limited brings together local businesses and communities to support them to develop to their full potential. We do this on the one hand by providing business support and on the other hand, through delivering social action projects that help address social and economic disadvantage.

CBSA was established 30 years ago as an enterprise organisation that provided a range of business support. Today we have over 2500 members and continue to work actively with the sector to help business grow. In return, businesses help us to deliver our social action projects.
